## Fresh footie shirts

Young footballers from Lindfield Juniors FC U10s are sporting brand new training tops - thanks to the generous sponsorship of Intercleanse Ltd.

The company has a long history of sponsoring football at various levels, including professional teams. "However, now felt like the right time to support the grassroots game and, as we work with some people who are involved with the club, this felt like the perfect opportunity to help 45 children very much at the start of their footballing journeys," said Managing Director Dave Brown.

Dominic Roberjot, Lindfield U10s head coach, said: "Being able to train and play matches again after months in lockdown has been amazing for the health and wellbeing for so many of the children in our community.

"As coaches, we now have to run our matches and training sessions following strict COVID safety guidelines and having all our players wearing the same training tops allows us to manage this much more effectively as we look to limit the use of normal equipment like bibs.

"An added bonus is that we can also use the new shirts

as an away kit as so many of our opponents seem to now play in green this year!"

Chairman of Lindfield Juniors FC, Tim Robinson, added: "We recognise that it's been a strange time for so many families in the community and that's one of the reasons we have initially reduced our registration fees for the season.

"That places an even greater importance on the generous sponsorship we receive from outside organisations and we are incredibly grateful to all of the companies who support the club throughout all of our age groups each year."

## Fast fashion debate

Fairer World Lindfield's November virtual climate café is on the subject of Fast Fashion.

Cheap clothing produced rapidly by mass-market retailers has an environmentally and socially devastating impact on our planet. In the UK alone, it is estimated £140 million of clothes are sent to landfill or an incinerator each year.

Join the discussion on Monday 2nd November between 7pm and 8.15pm with Carrie Cort, CEO of Sussex Green Living, and 17-year-old Founder of SwopItUp, Zaqiya Cajee, to see how we can make a difference by using our purchasing power.

Book via Eventbrite via this link:

## Lions Club raises over £2,000

A member of Haywards Heath Lions Club has been very busy during the lockdown period making wooden planters for family, friends, Lions club members and other keen gardeners to enhance their gardens with flower displays. More than 100 planters have been made with the total profits amounting to more than £2,000. This has enabled the Haywards Heath Lions to continue supporting the local foodbank and other charitable causes while their usual fundraising activities are suspended due to the coronavirus situation.

If you are interested in helping the Lions help others and would like to purchase a well-made, solid wooden planter, please contact the secretary on 0345 8335807 to place your order. Each planter costs £35 with £20 going to charity.
